

# What is BOTOX COSMETIC®?

BOTOX COSMETIC® is a purified protein that is injected into the muscles that cause wrinkles. It relaxes the muscles, giving your face a more refreshed and rejuvenated appearance.<sup>1</sup>

BOTOX COSMETIC® is intended to enhance your look, not change it—you can still smile, frown and be expressive.<sup>1-3</sup> You'll begin to see results as soon as 24 hours after your treatment, and the lines may continue to fade up to one week afterwards.<sup>4</sup> The effects can last up to four months.<sup>5</sup>

## Treatment areas

Real patient. **Results may vary.**

## Your BOTOX COSMETIC® treatment today: (Please check the relevant boxes below)

## Post-treatment care<sup>1</sup>

To limit complications, it is recommended to:

- Avoid rubbing or massaging the treated areas for 24 hours after treatment
- Cleanse your face gently that evening (do not rub)
- Avoid make-up application for 4 hours following treatment
- Avoid excessive bending down, tiring physical exercise or hot tub use on the day of treatment

## BOTOX COSMETIC® safety information<sup>1</sup>

BOTOX COSMETIC® is used to treat upper facial lines, including forehead, crow's feet and frown lines.

BOTOX COSMETIC® is onabotulinumtoxinA, a sterile, purified form of botulinum toxin type A. BOTOX COSMETIC® should only be given by a physician with the appropriate qualifications and experience.

### **You should not use BOTOX COSMETIC® if:**

- You are allergic or sensitive to any of the ingredients
- You have an infection in the area where it would be injected
- You have myasthenia gravis, Eaton Lambert Syndrome, amyotrophic lateral sclerosis, peripheral motor neuropathic disease, or neuromuscular junction disorder

### **Before you receive BOTOX COSMETIC® talk to your doctor or pharmacist if:**

- You are scheduled to have surgery using a general anaesthetic
- You are taking or are likely to take antibiotics, especially aminoglycoside antibiotics as they may increase the effect of BOTOX COSMETIC®
- You are pregnant or become pregnant or are nursing while taking this drug

Tell your doctor if you are taking other medicines, including any you have bought at your pharmacy, supermarket or health food shop.

General side effects of BOTOX COSMETIC® injections include pain, tenderness and/or bruising at the site of injection, weakness, and malaise (generally feeling unwell). There have been rare reports (<0.1%) of changes in the way the heart beats, chest pain, myocardial infarction (some with fatal outcomes); skin rash; allergic reaction (symptoms: shortness of breath, wheezing or difficulty breathing; swelling of the face, lips, tongue or other parts of the body; rash, itching or hives on the skin); facial paralysis; seizures; or difficulty swallowing. Seek immediate care if swallowing, speech or respiratory problems arise.

### **This is not a complete list of side effects. For any unexpected effects while taking BOTOX COSMETIC®, contact your doctor or pharmacist.**
